Please note these works are essential and have been scheduled in coordination with ESB networks.

Specialist engineers will carry out works on the 3rd and 4th of June, typically starting at 8:00PM and lasting for a few hours. **The works carried out on the 11th, 12th, 13th, 14th, and 15th of August typically starting at 8:00AM and lasting until 6:00PM.** The power to these buildings will be completely shut off and therefore no services will be available during the downtime. Some of the critical buildings have diesel generators and these will be running during the works to provide backup power only.

During these works, we advise the following precautions:

1. Switch off and unplug at the socket, all non-essential offices equipment, workshop equipment and computers.
2. All non-essential equipment in Labs must be isolated at the socket.
3. Ensure experiments in labs are ceased to safeguard against loss of experiments.
4. Turn off all lighting.
5. No persons shall be in any building during the shutdown.
6. DO NOT USE THE LIFTS.
